

DATA SCIENCE IN MANUFACTURING

Get data science
application insights

Popular data science use cases

- 🔗 Optimization of price & supply chain
- 🔗 Real-time performance analytics
- 🔗 Smart factory with robotization
- 🔗 Fault prediction & preventive maintenance

Top firms that apply data science

Volkswagen

VOLKSWAGEN

BOSCH

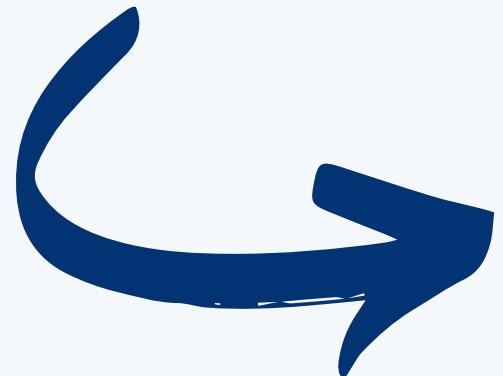

BOSCH

Apple

FORD

APPLE

Ways of data science application

 **Volkswagen**

Sales planning with AI

 **Bosch**

Industrial IoT & AI for decision making

 **Ford**

Better customer relations

 **Apple**

Big data to improve client services

Future prospects with data science

- » Predictive analysis of idle time
- » AI powered robots for dangerous tasks
- » High speed processing with computer vision
- » Modern price optimization solutions

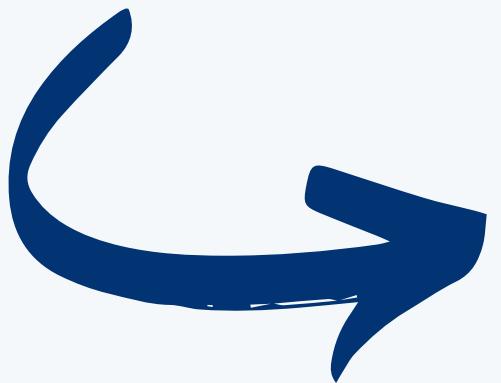

Case Study

Generate more revenue with data science

In **2006**, Ford had a \$12.6 billion loss. After loss Ford brought transformation with Data Science.

In **2009**, Ford sold 2.3 million cars with profit.

Innovations make room for talent

AIMING TO SKILL UP
IN DATA SCIENCE?

CHOOSE THE RIGHT PROGRAM

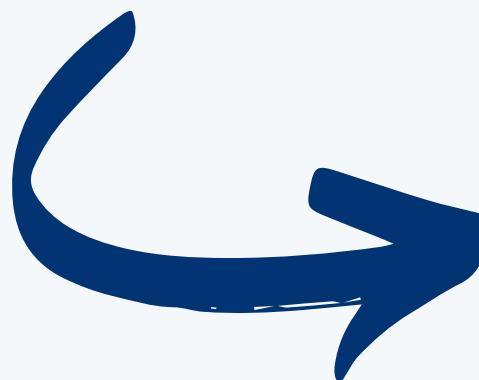

COME, ENROLL IN SKILLSLASH!

GET A PERSONALIZED LEARNING
EXPERIENCE

SKILLSLASH

distinctive features:

- Tailor made, industry-specific courses
- 15+ Real-time AI, ML projects with guidance
- Project certification from AI startups
- Elective tracks & domain training

LEARN FROM EXPERTS IN DATA SCIENCE

Get industrial exposure
& experience!
